

LMP Pro Series season 2019 - Motortest Race in Mülheim 05.01.2019

The season 2018 is just finished with a great final in Trier - we will submit the report shortly - the new season is already here. The documents, including a presentation of the season 2019, are online on our homepage.

We want to drive the Motortest Race in Mülheim 05.01.2019. Unfortunately, a better date was not possible.

To achieve enough driving time for the motors, in this race maximum 12 teams can participate. The Motortest race will be driven according to the valid regulations, only exceptions, the car can be older than 5 years and need no lights. Every team can drive with own, or handout wheels. Please write a note during inscription, if your team want handout wheels - Price per set 14,90 Euro. There are no costs for the Phoenix motors. On request, the motors can be purchased after the race for half of the original price.

The entry fee is 10,- Euro per team and will go to 100% to Slotracing Mülheim.

The inscription is from now until 16.12.2018. After this we will publish the final timetable, but your team should be prepared for a race day from morning to evening!

We also want to give new teams the unique opportunity to have a look in LMP Pro Series racing. Sebastian will prepare two extra cars, so we can offer two new teams a car for this event!

Motortest race registration: info@lmp-pro-series.com

Kind regards,
Joachim, Gerd und Sebastian
